# The Art of Immediate Dentures

A one day masterclass presented by Finlay Sutton

Immediate dentures are often some of the most difficult and least well tolerated dentures that we give our patients. I want to share with you the techniques and methods Rowan Garstang (my dental technician) and I use to achieve predictable results with immediate dentures. I will show how I make superb impressions – even with mobile teeth in the way. The process from diagnosis, treatment planning and treatment provision will be shown in detail. This will be full of tips, techniques and practical advice which can be implemented straight away into practice.

This day is aimed at dentists, clinical dental technicians and dental technicians with a live patient demonstration and lectures abundantly illustrated with step by step photographs and videos of all procedures.

## Aims, objectives & anticipated outcomes:

- › Increased professional satisfaction when providing immediate dentures
- › Making immediate dentures as stable, comfortable and secure as possible
- › Will be useful for implant dentists in the process of producing fixed restorations with the teeth positioned in aesthetically the “right place”
- › Correct preparation of the models
- › Taking superb impressions even with mobile teeth and bridges
- › Planning cases carefully to achieve optimum aesthetics & function of immediate dentures
- › Know the best time to reline or remake the dentures
- › Have happier patients with improved outcomes
- › Better communication with your dental technician
