# The Art of Removable Partial Dentures

A one day masterclass presented by Finlay Sutton  
with lectures and live demonstration on a patient

I absolutely love providing partial dentures for my patients. I will show you how to make partial dentures function like “removable bridges” and prove that they are viable alternatives to dental implant supported restorations. In addition, I will demonstrate that a well designed and made partial dentures can have superior aesthetics over fixed restorations. I will share with you the techniques and methods Rowan Garstang (my dental technician) and I use to achieve predictable results with removable prosthodontics. We provide a special form of partial denture design which is based around a solid chassis (major connector) which splints mobile teeth and protects the periodontium of the remaining natural teeth as much as possible. I will show you how I design and manage all combinations of missing teeth. As well as discussing tooth positioning and partial denture occlusion I will show you how I make superb impressions and record the occlusion using gothic arch tracing (in a live demonstration on a patient) enabling Rowan to make accurately fitting partial dentures.

This day is aimed at dentists, clinical dental technicians and dental technicians consisting of a live patient demonstration and lectures abundantly illustrated with step by step photographs & videos of all procedures.

## Dr Finlay Sutton

BDS, DGD (UK), MSc, MFDS RCS Ed, MRD RCS Ed, PhD, FDS (Rest Dent) RCS Ed. Registered Specialist in Restorative Dentistry, Prosthodontics, Periodontics and Endodontics.

Finlay qualified as a dentist in Sheffield in 1993 and worked in General Dental Practice for 6 years. He has always had a desire to provide the best possible treatment for his patients and has continued to develop professionally through specialist training leading to; MSc in fixed and removable prosthodontics, PhD and two Specialist qualifications (MRD & FDS). He has previously been a Senior Clinical Teaching Fellow and Consultant in Restorative Dentistry at the University Dental Hospital of Manchester and Liverpool University Dental Hospital.

## Aims, objectives & anticipated outcomes:

- Increased professional satisfaction and rekindle your enthusiasm for partial dentures
- Making partial dentures as stable, comfortable and secure as possible
- A good understanding of a step by step design sequence
- Optimising the aesthetics of partial dentures
- Making accurate impressions of the hard & soft tissues for cobalt chromium castings
- Record occlusal relations accurately using gothic arch tracing
- Design partial dentures to limit periodontal damage
- Be able to adjust partial dentures, without compromising their fit
- Make partial dentures fit and work like removable bridges
- Have happier patients with improved outcomes
- Better communication with your dental technician

### PROGRAMME:

8.45 - 9.00

*Registration & Refreshments*

9.00 - 11.15

Partial denture design, impression making, occlusal registration using rims and gothic arch tracing

11.15 - 11.30

*Refreshment break*

11.30 - 13.00

Patient demonstration impression making and registration and gothic arch tracing

13.00 - 14.00

*Lunch*

14.00 - 15.00

Finlay's case presentations – delegates practice designing for each case

15.00 - 15.15

*Refreshment break*

15.30 - 17.00

Finlay's case presentations – delegates practice designing for each case
